

Meet the Gorilla! ■

Where they live:	Africa — big green rainforests
What they eat:	Leaves, fruit, and tree bark
How big?	As heavy as 2 large fridges!
Are they safe?	No — they need our help!

5 Amazing Facts!

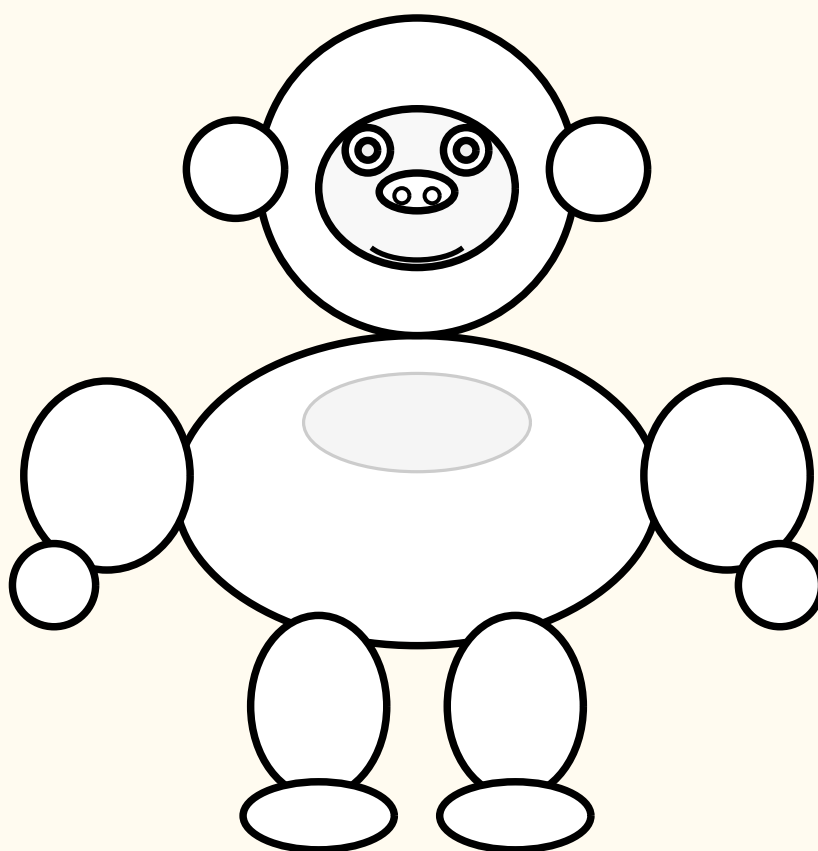

1. Gorillas live in family groups called 'troops' led by a big male called a Silverback.
2. Baby gorillas ride on their mum's back — just like a piggyback!
3. Gorillas love to eat fruit, leaves, and stems. They are very gentle giants.
4. A gorilla's arms are longer than its legs — perfect for knuckle-walking!
5. Gorillas can learn sign language to talk to humans!

Gorillas need YOUR help!

There are fewer than 1,100 mountain gorillas left. Scientists and rangers work every day to keep them safe.

Color Me! — Gorilla

Use your favourite colours!

Tip: Gorillas have black fur and a grey or silver back!

Activity Time! ➡

Match It Up! Draw a line from the word to its description.

Gorilla		is the leader of the troop
Silverback		eats leaves and fruit
Baby gorilla		rides on mum's back
Rainforest		is where gorillas live
Poaching		is a danger to gorillas

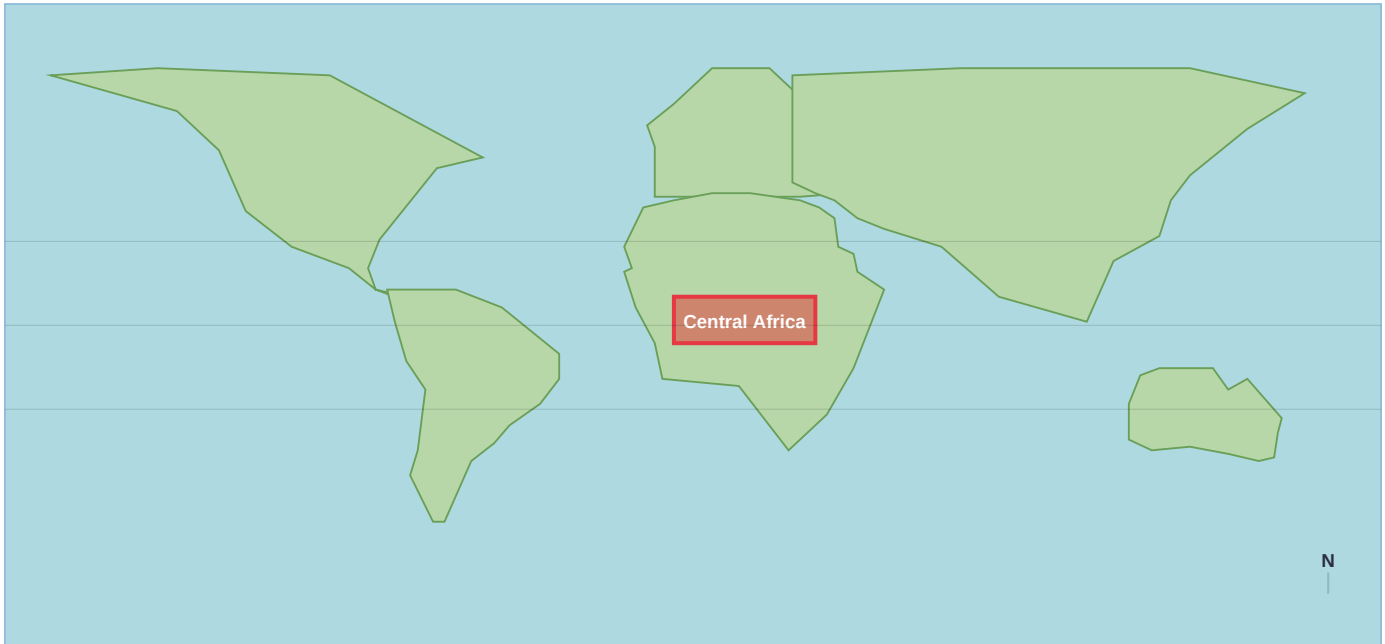

Count the Bananas! ■

Gorillas love bananas! Count each row and write the number.

	How many? _____
	How many? _____
	How many? _____
	How many? _____
	How many? _____

Where in the World? ■■

Gorillas live in **DR Congo, Uganda, Rwanda, Cameroon, Gabon**. The red area on the map shows where they are found.

About the Rainforest Home ■

Weather:	Hot and rainy all year round
Trees:	Hundreds of metres tall — like giant umbrellas!
Neighbours:	Chimpanzees, forest elephants, and colourful birds
Danger:	People are cutting down the forest for farms

STEM Project: Build a Gorilla Nest! ■

Big Question: How do gorillas stay warm and safe at night?

You will need:

- Twigs and leaves from outside
- Soft grass or crumpled paper
- A small toy animal

What to do:

Step 1: Collect some twigs, leaves, and soft grass from your garden.

Step 2: Bend the bigger twigs into a circle on the ground.

Step 3: Weave the smaller twigs together to make the bottom of the nest.

Step 4: Add soft leaves and grass inside to make it comfortable.

Step 5: Place your toy animal inside — does it look cosy and safe?

What did you learn? Gorillas build a new nest every single night using whatever plants are nearby. This keeps them off the cold ground and safe from danger.

Draw what you made! ⇒■

Writing Time! ■

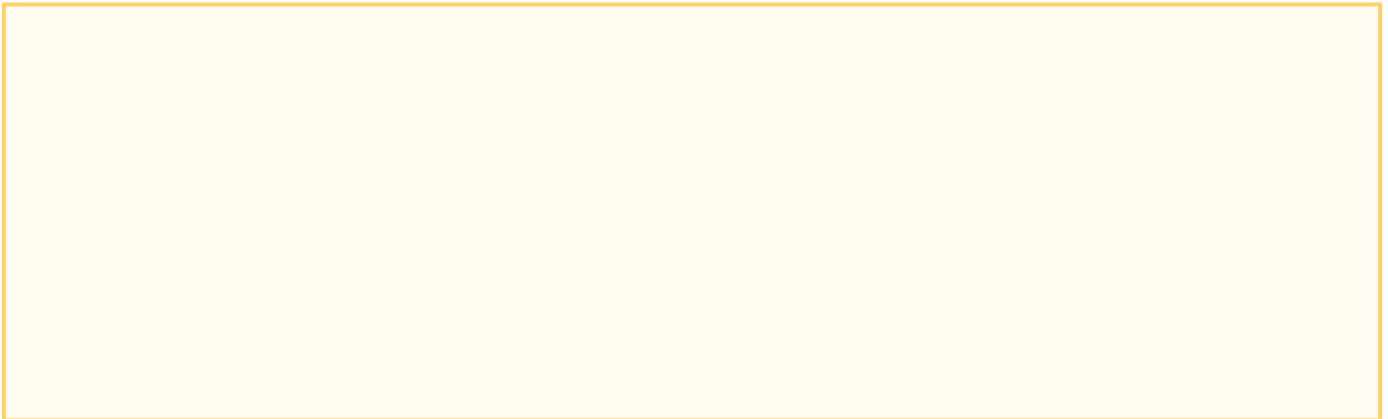

Choose one sentence starter below and finish the story on the lines. Draw a picture to go with your story!

If I were a baby gorilla, I would love to...

My gorilla friend's name is _____ and together we...

The scariest thing about being a gorilla is...
